INSTRUCTIONS FOR SUBMITTING NAMES INSIDE OF NUMBERS;

You need a set of names for each number you're using (example: 2 sets for 04; 4 sets for 2004). Using a word processing program, type the names in the order you want them to appear, with a double space between each name. First name-space-last name, double space and so on... **OR** last name-space-first name, double space and so on...

Just type the names end to end and let them go to the next line automatically as you type (do not use a "carriage return"). Use a plain typeface with a point size of 12 to 14.

Example;

LISA space SMITH 2 spaces JOE space BROWN 2 spaces
